

DAYMAK

EMI

A blue and gold Daymak EM1 electric motorcycle is the central focus, parked on a grey concrete floor. The bike features a prominent blue front fender, gold-colored front forks, and a large, multi-lens headlight. A white helmet with black and grey accents is mounted on the handlebars. In the background, two men are visible, one in a purple shirt and another in a black shirt, looking towards the bike. The scene is lit with bright, cool-toned lights, suggesting an indoor exhibition or showroom setting.

The Future of ebikes

The Daymak EM1 is the perfect hybrid of a motorcycle and an ebike. With the EM1 you get the look and style of a motorcycle while being a 0 emission fully electric motor bike. With its hydraulic disc brakes ride safe with incredible stopping power. The EM1 also comes with USD shocks for the smoothest ride. This ebike is fully automatic making it great for novice riders to get the feel of motorcycles, and it requires no license, registration or insurance. It almost seems to good to be true!

EM1

Perfect for 1 or 2 Old or New

Great for young riders the EM1 can be rode by anyone at the age of 16 years old and can be ridden with an additional rider provided they where a helmet!

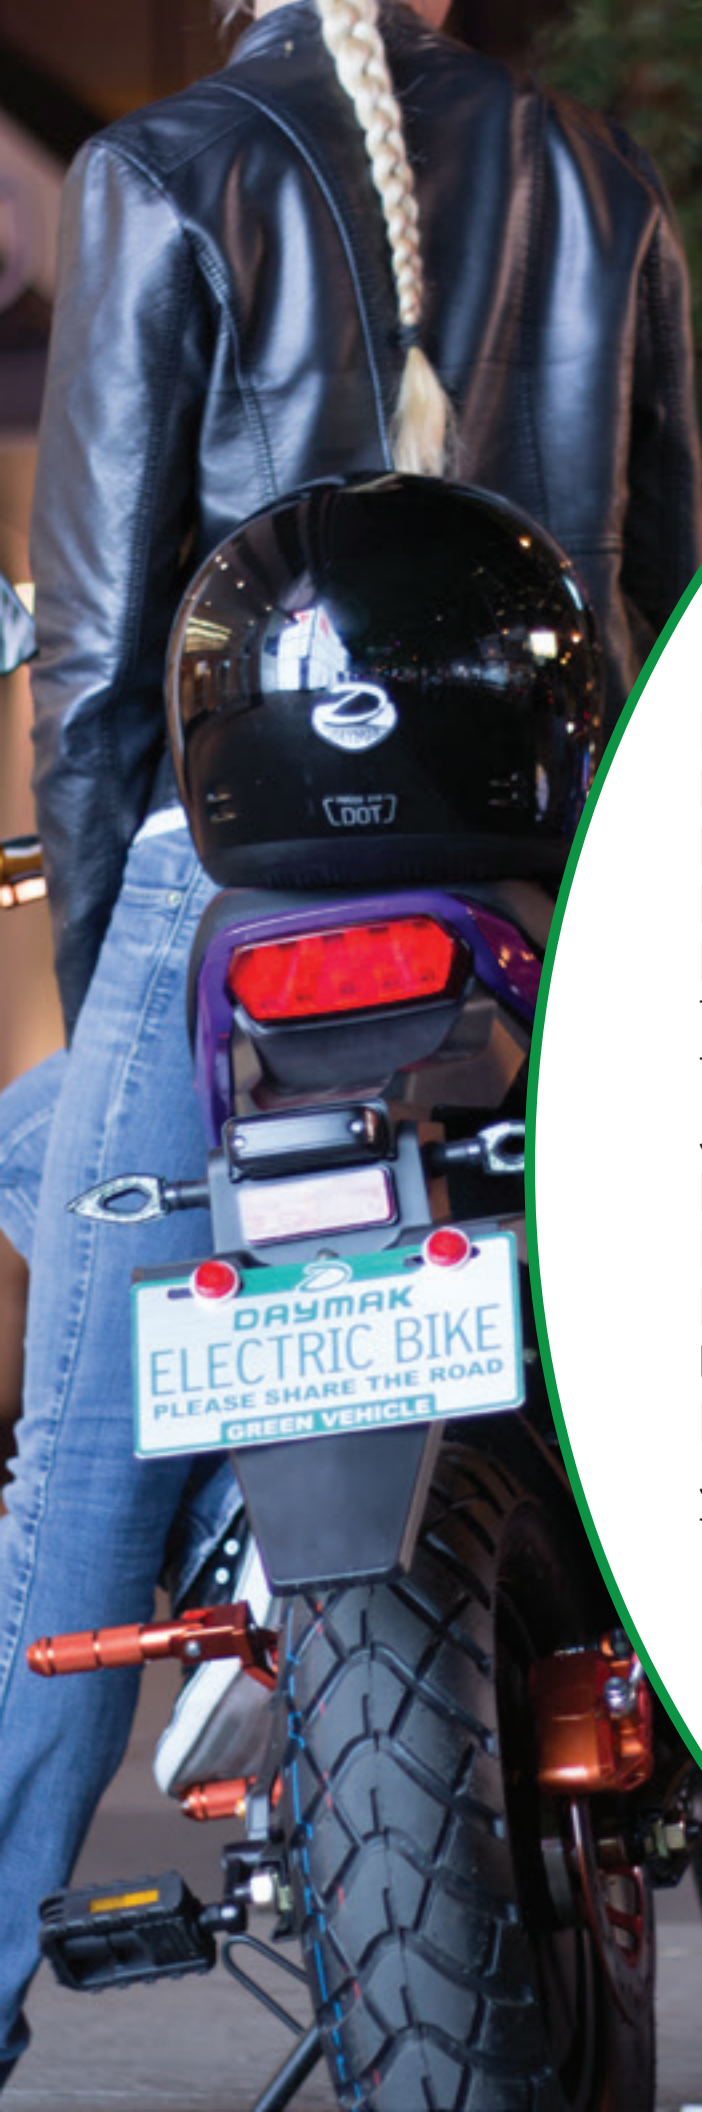

Bluetooth connected

Wirelessly connect via bluetooth to lock your motor to prevent theft, increase the range of your bike, adjust your acceleration curve and more. Set cruise control or go in reverse all with an Android smart phone. With the Daymak Drive App you can personalize the EMI to fit your needs.
