

BOOMERBUGGY TRANSPORTER

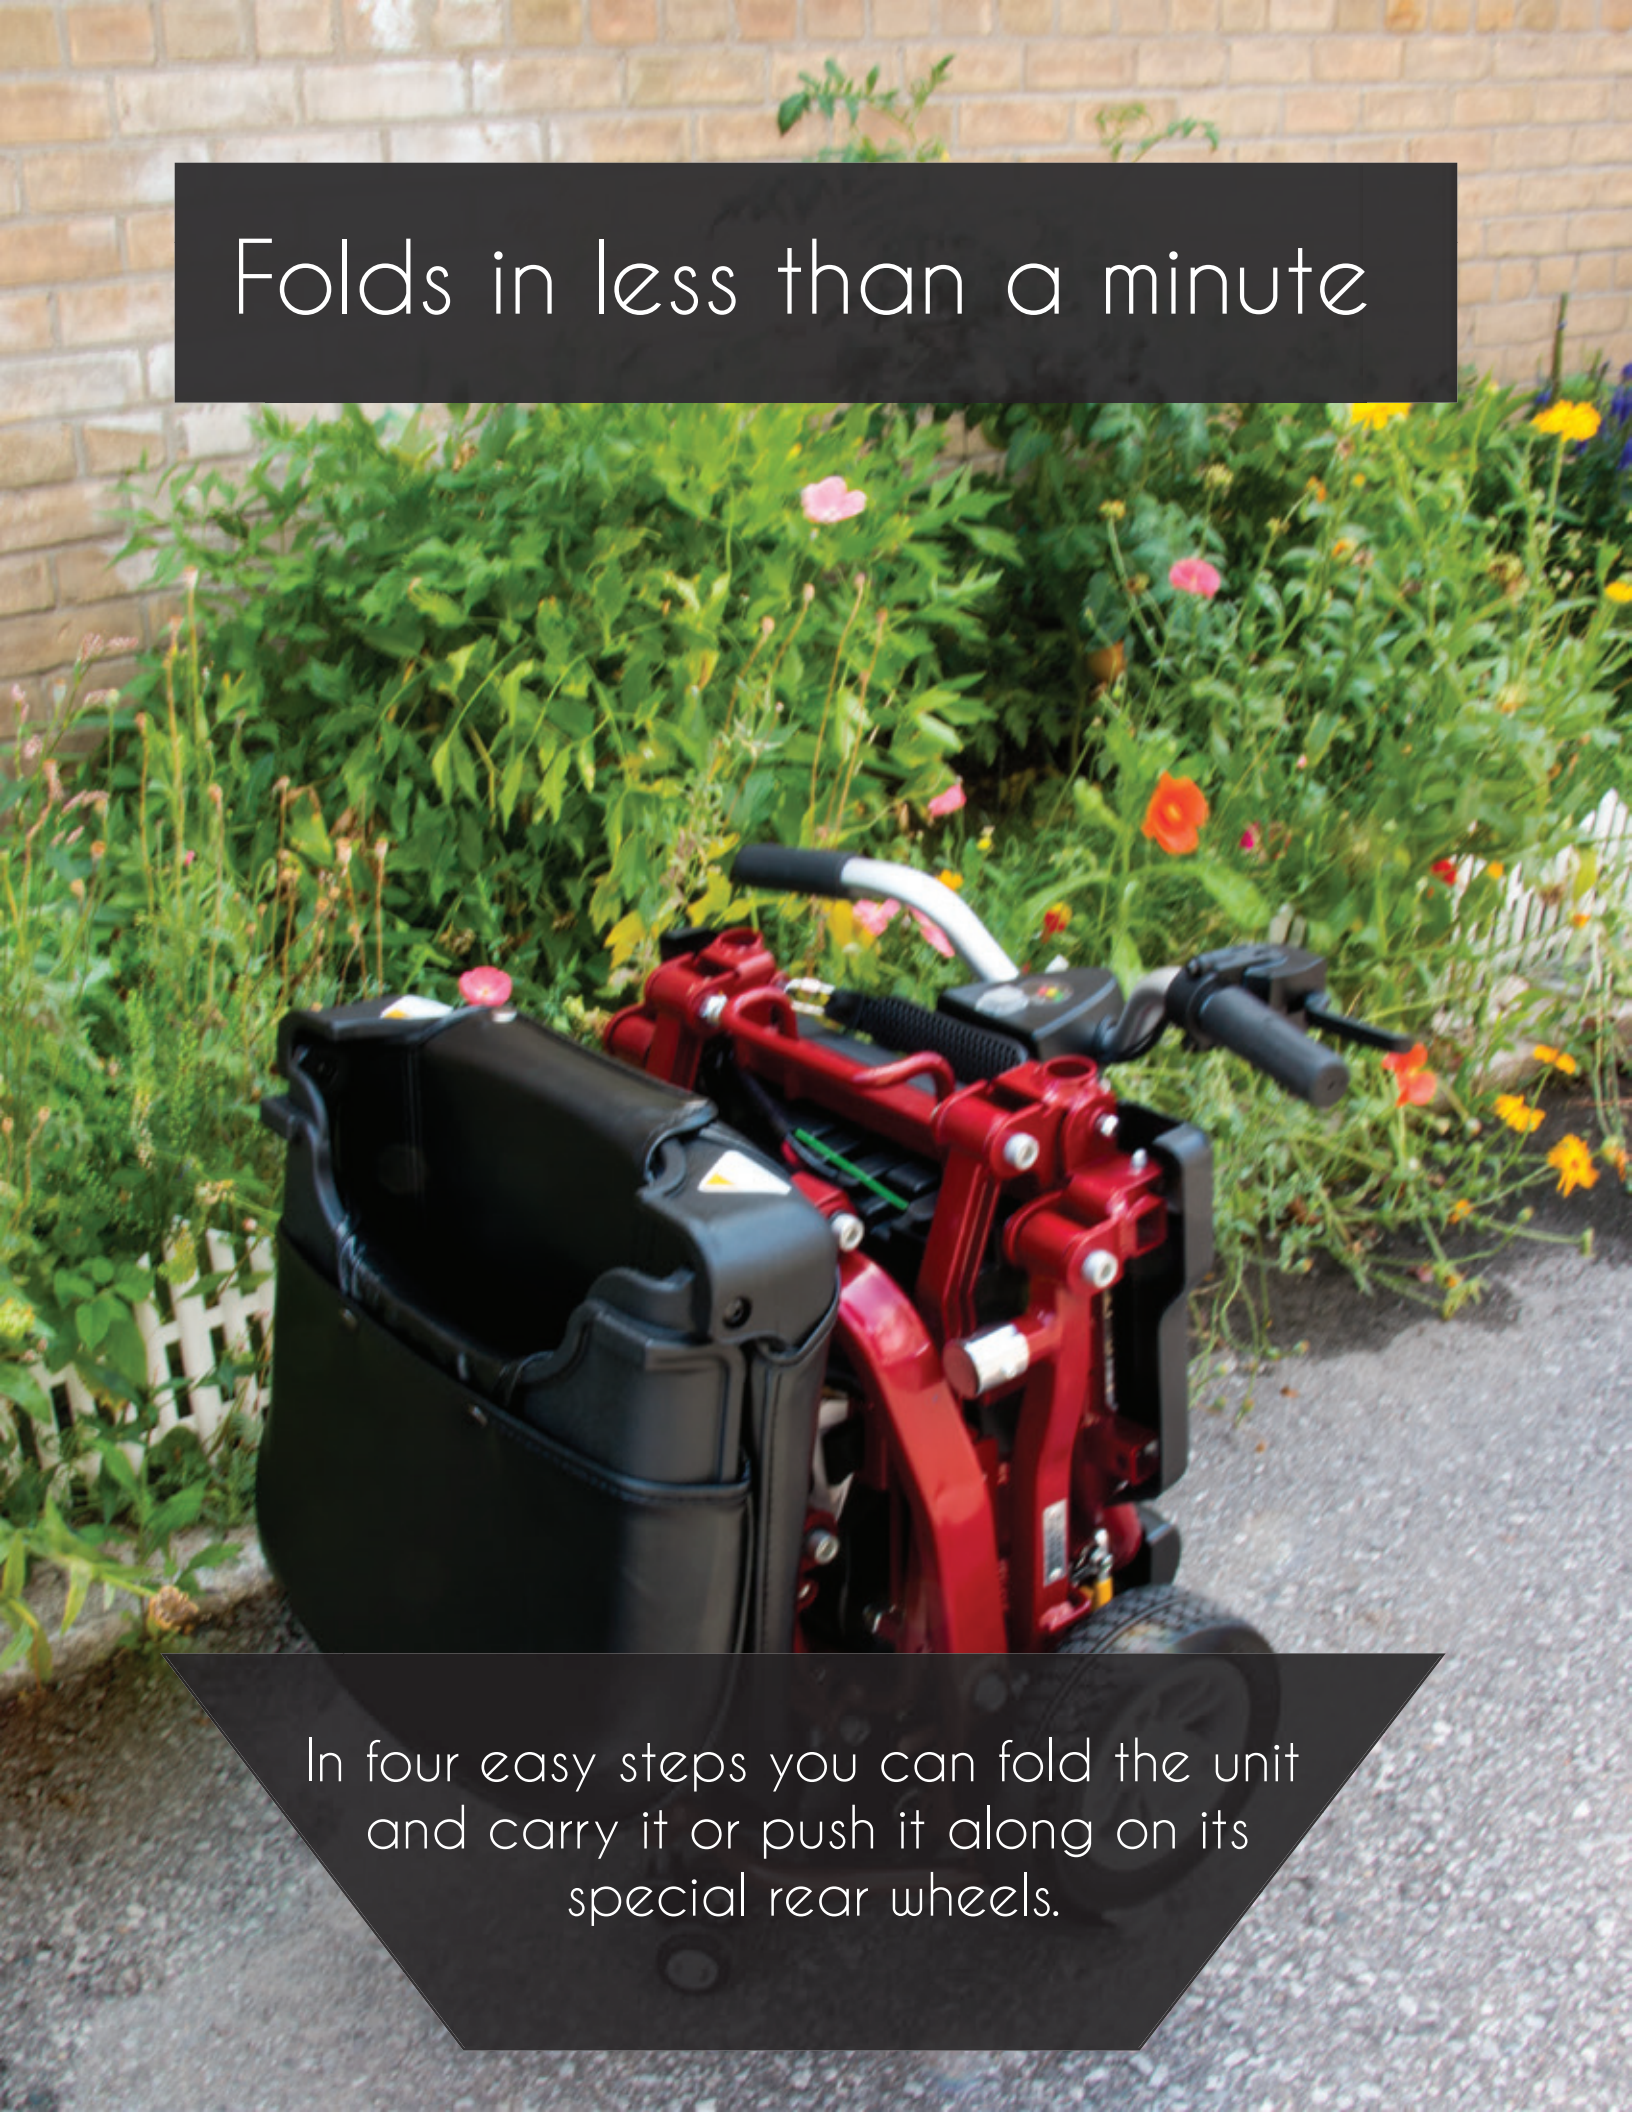

Portability Meets Mobility

The Boomerbuggy Transporter allows just about anyone to get around with almost no effort. This lightweight folding mobility scooter is perfect for anyone who is traveling abroad that may not have the same mobility as before. With an effortless pull of a trigger you can cruise around in the tightest of quarters that traditional mobility scooters cannot. With its incredibly easy folding mechanism, and its removable battery pack, take it on road trips, flights, public transit...you name it! Never be limited to your home because of your mobility.

A red and black folding utility vehicle is shown in a garden setting. The vehicle is partially folded, with the seat and handlebars visible. It is parked on a gravel path next to a brick wall and a garden with various flowers. The text "Folds in less than a minute" is overlaid on a dark grey rectangular background at the top of the image.

Folds in less than a minute

A red and black folding utility vehicle is shown in a garden setting. The vehicle is partially folded, with the seat and handlebars visible. It is parked on a gravel path next to a brick wall and a garden with various flowers. The text "Folds in less than a minute" is overlaid on a dark grey rectangular background at the top of the image. The text "In four easy steps you can fold the unit and carry it or push it along on its special rear wheels." is overlaid on a dark grey triangular background at the bottom of the image.

In four easy steps you can fold the unit
and carry it or push it along on its
special rear wheels.

Lefties or Righties Rejoice!

Easily move the throttle from the left side to the right for those who lack the ability in one hand or the other,
