ABOUT DAYMAK

Founded in 2001, Daymak is Canada's largest distributor of Light Electric Vehicles (LEVs), focused on reducing carbon footprints and driving technological innovation. With over 100,000 units sold and exports to over 30 countries, Daymak continues to lead the industry with sustainable, cutting-edge mobility solutions.

ABOUT AVVENIRE

Avvenire offers Light Electric Vehicles (LEVs) that are compact, efficient, and eco-friendly transportation solutions. They represent the future of urban mobility, offering a sustainable alternative to traditional vehicles by reducing traffic congestion, lowering emissions, and providing flexible, cost-effective travel options.

WHY DAYMAK

Since 2001, Daymak has been driving innovation in affordable, eco-friendly transportation. With a dealer-focused approach, we're committed to delivering exceptional value, superior service, and reliable solutions to help your business thrive.

MADE IN CANADA

At Daymak, we take pride in designing and assembling innovative products like the Boomerbeast right here in Toronto, as well as Avvenire's Leggera and Combat Ebike. Every product reflects our commitment to quality, reliability, and performance, crafted to meet the highest standards.

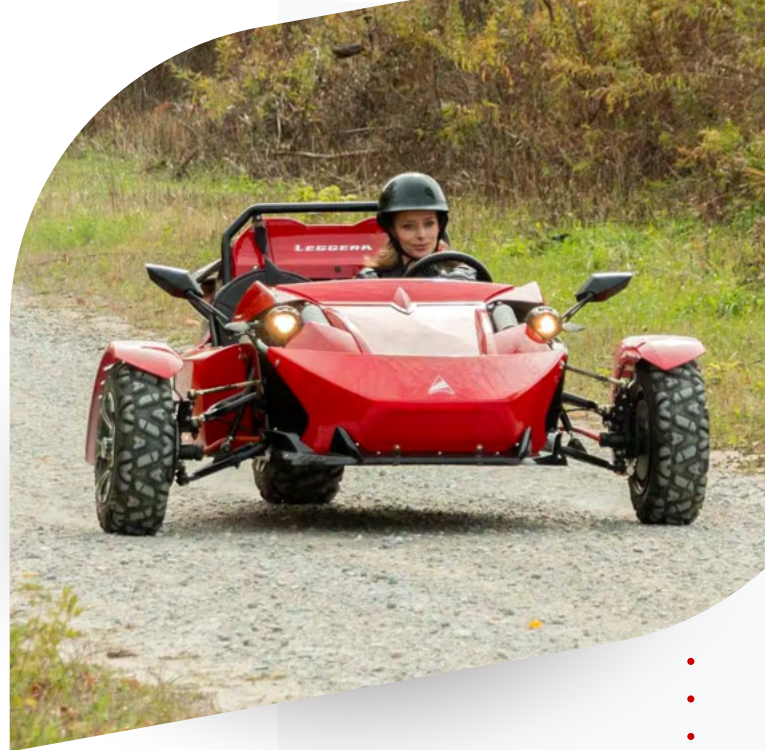

By producing locally, we:

- Support Canadian jobs and industries.
- Meet rigorous safety and quality standards, including the National Safety Mark.
- Deliver faster turnaround times for customization and shipping.

LEGGERA

The Leggera is a Fully-Electric, three-wheeled vehicle that lets you own the roads like never before. Take it off-road on the trails by switching the tires and utilizing its unique adjustable shock system.

BOOMERBEAST

This All-Terrain Mobility Scooter offers unmatched freedom, handling dirt, snow, sand, and pavement with ease. Built to conquer any terrain, any time, anywhere

COMBAT EBIKE

Experience the thrill of adventure with the All-Terrain Dirt E-bike, now equipped with an innovative snow kit. Our easy-to-install track system will transform your Combat into a Snow E-bike in under an hour.

BOOMERBUGGY X PRO LR

UP TO 100KM IN RANGE

The BBX Pro LR is more than just a Mobility Scooter. It is a life-changing mobility partner designed for year-round use and safety in mind. Get the gift of freedom and travel with confidence and peace of mind.

BOOMERBEAST 2D

2025 VERSION

Built in Canada, this All-Wheel-Drive Mobility Scooter handles all kind of terrain up to 100Km range. The 2025 version features an updated modern display, and customizable options, offering ultimate comfort and adventure no matter the conditions.

WILD GOOSE S

NEW E-BIKE

The Wild Goose S Fat Tire E-Bike step through frame for easy climb. Built for long, leisurely rides, its fat tires tackle any terrain and weather, providing a smooth, reliable ride for all-season adventures.

PHOENIX S

NEW E-BIKE

The Phoenix S E-Bike is built to make every journey enjoyable and smooth combining ease, comfort, and practicality. Its low step-through frame ensures effortless mounting, while front and rear suspension deliver a smooth ride. It's perfect for errands or leisurely outings.

COMBAT EBIKE

The Combat Ebike is built for adventure. With a top speed of 60Km/h and a 70Km range, this All-Terrain-Vehicle comes with an innovative snow kit that transforms it into a snow e-bike in under an hour, making it ready for year-round fun.
